COURSES OF STUDY.

The following are the General Courses of Study of the Institute, each commencing with Division D, and extending over the period of four years, viz:

1. Course in Civil Engineering.
2. Course in Mechanical Engineering.
3. Course in Mining Engineering.
4. Course in Natural Science.

Upon the completion of any one of these General Courses, Students are admitted to the corresponding Degree of Civil Engineer, of Mechanical Engineer, of Mining Engineer, or of Bachelor of Science.

TERMS OF ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Reading, Spelling, Penmanship, Arithmetic, Geography, English Grammar, five chapters of Davies' Bourdon's Algebra, and three books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and, also, in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions. The first or Winter Session consists of twenty-one weeks, and is followed by a vacation of one week. The second or Summer Session consists of twenty weeks, and is followed by a vacation of ten weeks.

The Scholastic year of 1868—69 will commence on the 9th of September, 1868.

AT THE FAIRS OF THE

American Institute, Franklin Institute, Maryland Institute, Mass. Mechanics' Association, Penn. Mechanics' Institute, St. Louis Agricultural and Mechanics' Association,

And at numerous Institutes and County Fairs, including all the Fairs at which they were exhibited the past three years. First Prizes have also been awarded these Machines at the exhibitions of

LONDON, PARIS, DUBLIN, LINZ, BESANCON, BAYONNE, ST. DIZIER, CHALONS,

And they have been furnished, by special command, to the

Empress of France, Empress of Austria, Empress of Russia, Empress of Brazil, Queen of England, Queen of Spain, and Queen of Bavaria.

☞ The very highest prize, **THE CROSS OF THE LEGION OF HONOR,** was conferred on the representative of the Grover & Baker Sewing Machines, at the Exposition Universalle, Paris, 1867, thus attesting their great superiority over all other Sewing Machines.

POINTS OF EXCELLENCE.

Beauty and Elasticity of Stitch.
Perfection and Simplicity of Machinery.
Using both threads directly from the spools,
No fastening of seams by hand and no waste of thread.
Wide range of application without change of adjustment.
The seam retains its beauty and firmness after washing and ironing.
Besides doing all kinds of work done by other Sewing Machines, these Machines execute the most beautiful and permanent Embroidery and ornamental work.

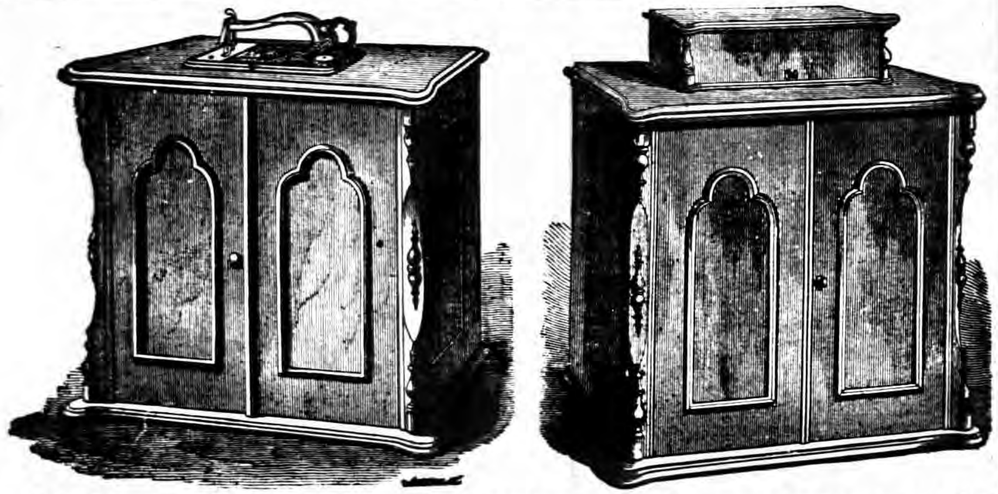
GROVER & BAKER S. M. CO.,

342 River Street, Troy.

GROVER & BAKER ELASTIC STITCH MACHINES.

No. 23 is a plain finished machine, adapted for family sewing and light manufacturing. The stand is of iron, enamelled, and the table of solid black walnut, strong and well finished. **Price**, without cover, $55; with cover, $60.

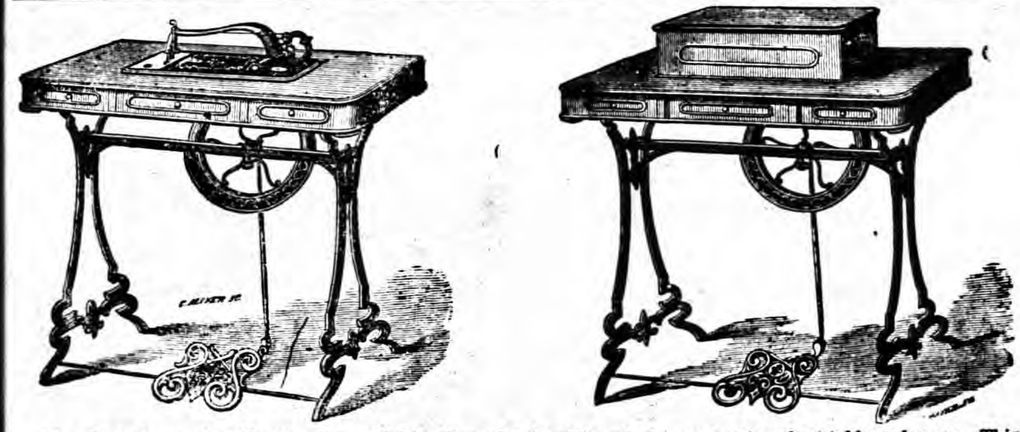
No. 22 is silver-plated, and neatly ornamented, with mahogany or black walnut table and cover. The legs are strong and handsomely made. This machine runs fast and still, and is much used in families. **Price $80.**



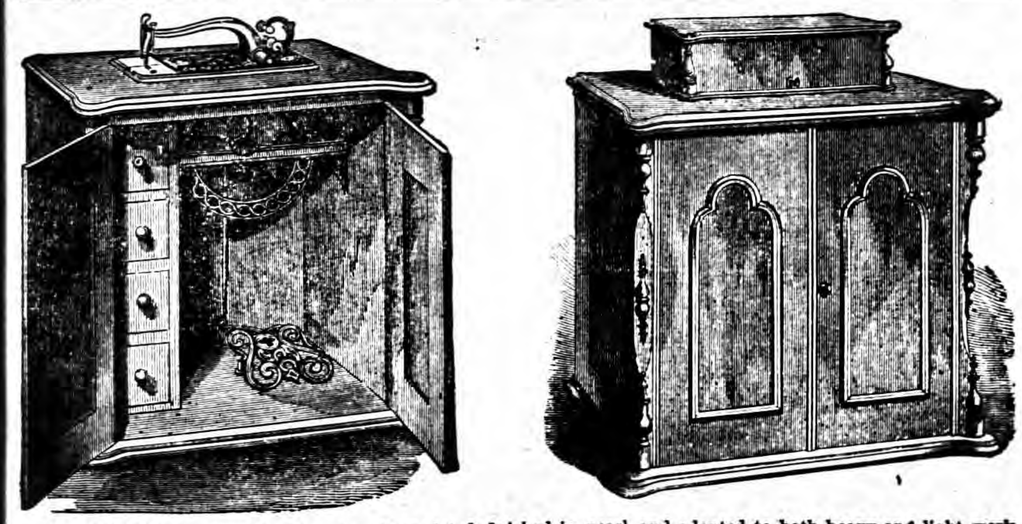
No. 26 is a silver-plated machine, in an elegant, substantial, and durable mahogany or black walnut cabinet. It is light running, quiet, and rapid, and is much used in small families for light work. **Price $105.**

GROVER & BAKER ELASTIC STITCH MACHINES.

No. 24 is larger than No. 23, of same finish, and has a cover. Extensively used in families, by dressmakers, and for light manufacturing, quilting linings, binding hats, embroidering cloth hats, umbrellas, &c. **Price $68.**

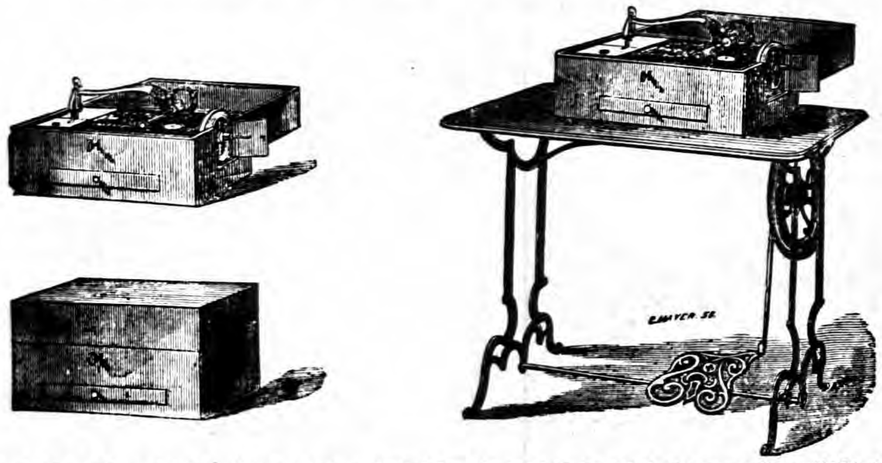


No. 25 is larger than No. 22, of same finish, silver-plated, with mahogany or black walnut table and cover. This machine is adapted to all varieties of family sewing. **Price $90.**



No. 27 is larger than No. 26, extra silver-plated, finished in pearl, and adapted to both heavy and light work. The cabinet is of black walnut or mahogany. This is the favorite cabinet machine for family use. **Price $115.**

WORK-BOX (Elastic Stitch) MACHINE.



No. 12 is a silver-plated machine, handsomely and durably finished in polished rosewood or solid black walnut boxes This is the only sewing machine perfectly adapted for use in travelling, and also well suited for home use. It is designed for use by hand, but may be used with treadle upon any table. It can be carried in one corner of a trunk. Price, without table, $80; with table, double speeded, $90.

SHUTTLE OR LOCK-STITCH MACHINES.

No. 9 is a light running machine, containing many improvements, adapted for tailoring, vest-making, light shoemaking, as well as for family sewing. Large numbers of these machines are in use, and they give universal satisfaction. None who have seen this machine will willingly use the noisy and cumbrous lock-stitch machines heretofore in general use. Price $55; with Hemmers, $60.

No. 1. This machine is a new invention, and a most important advance upon all machines heretofore known for sewing with the Lock-Stitch. It is of great power and strength, especially adapted for tailors, shoemakers, harness-makers, carriage-trimmers, and for all descriptions of work to which the lock-stitch is applicable. It works with equal facility silk, cotton, or linen thread, and will sew the finest muslin as well as the thickest leather. Price $75; with Hemmers, $80.

☞ **A Set of Hemmers is included with each Machine except Nos. 1 and 9.**

☞ **Extra Carved or Rosewood Cabinets are furnished with Nos. 26 and 27, at a reasonable additional cost.**

☞ ***Binders, Corders, Braiders, Quilting Gauges, and all the important accessories to a modern Sewing Machine, of the latest and most approved style, furnished at the Lowest Prices.***

THIS Company owns and controls the entire water power of the Mohawk River at Cohoes, and has constructed one of the *finest Dams and Gate Houses* in the country to divert the water of the river to their canals, of which they have a series, so as to use the water under six different falls, having an aggregate head and fall of one hundred and twenty feet.

The company lease the water power with the lot at the rate of about *twenty* dollars per annum for a *horse power*. The power costs *less* than *one-third* of the cost of steam power, and is always ready and reliable.

Only about one-fourth of the available power is at present used, thus affording a large amount of power still available for manufacturing purposes.

Cohoes being centrally located, with easy facility for Railroad, Canal and River transportation to market, makes it one of the most desirable points for manufacturing in the United States,

THE NORTHERN BUDGET.

AN INDEPENDENT NEWS AND LITERARY JOURNAL.

Published at Troy, Every Sunday Morning.

EDITED BY CHARLES L. MAC ARTHUR.

THE NORTHERN BUDGET IS NOW THE EIGHTIETH VOLUME OF THE PAPER OF THAT NAME.

THE BUDGET, contains all the local news of the week, general intelligence and telegraphic news down to 4 o'clock Sunday morning of the day of publication. It contains the *latest* and *freshest* news and other matter which it is possible to obtain. Several literary writers contribute regularly.

The very general desire for a Sunday morning Journal, which, while its contents shall be fresh and sparkling, containing the latest news from all quarters, shall at the same time always be found ranged on the side of good morals, progress, freedom and reform, has induced the editor of the *Northern Budget* to supply this want. The *Budget* is an independent journal in politics, as on all other subjects.

The *Budget* will be served regularly to city subscribers at their residences by carriers at ***Twenty Cents per Month. Single Copies Five Cents.***

For sale at all the Newsrooms in Troy, Albany, West Troy, Waterford, Cohoes, Lansingburgh, North Adams, Mass., and surrounding country.

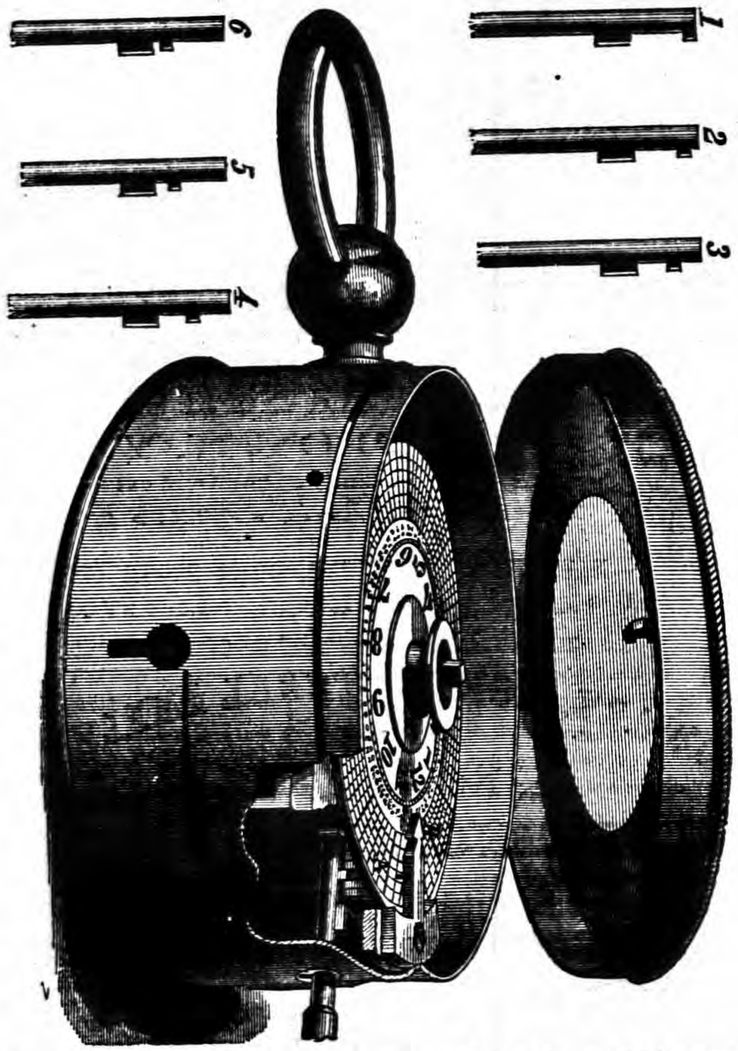
Buerk's Watchman's Time Detector.



The above engraving is a view of a Time Detector, which is carried about by the watchman to all the different stations to be guarded. At each station is a small key, securely fastened to prevent his taking it with him. The watchman goes from station to station, takes the key fastened there, inserts it into the clock, gives it one turn, and goes on to the next, or to any other station, for he is not bound to go in regular order. By this it follows that a perfect record will be kept of each operation.

The broken-out portion of the watch shows the mechanism which operates the pin which pricks the paper. At A, there is a number of sliding bars which connect with the pricking points, so that, by turning round the key, the ward on it strikes a certain bar and penetrates the dial-paper B. By that act, a small hole is made in the paper, which tells what time the man appeared at each station; how often he came there; how long he stopped; how long it took him to go from one to another; whether he went in regular order or not; in short, it gives a complete record of his night's work.

BUERK'S

Watchman's Time Detector.

This WATCH-CLOCK was introduced to the public in almost every section of the United States and Canadas, several years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts, and corrected deficiencies which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed, but with this a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger. But when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks; a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building, and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand pouches with straps to go over the shoulder and around the body, which I will send with the clock, if ordered. Price, $2.50.

The instrument will in all cases be warranted perfect and satisfactory.

Its price is invariably **Seventy-Five Dollars,** Cash on Delivery, including as many Keys as are requisite, not exceeding twelve.

THIS WATCH-CLOCK IS SOLD AT A LESS PRICE THAN ANY OTHER IN THE MARKET.

The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the United States, from whom numerous testimonials have been received.

N.B. Parties purchasing these Clocks should test them sufficiently in the counting room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

☞ This Detector is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.

All Communications promptly attended to.

MANUFACTURERS OF

HYDRAULIC-CEMENT

DRAIN AND SEWER PIPE,

AND DEALERS IN

CEMENT, CALCINED PLASTER & MARBLE DUST,

No. 17 Smith's Avenue, North Troy, N. Y.

☞ These Sewer Pipes, made of Hydraulic Cement and Gravel, are especially adapted for Sewerage, Sink Drains and Conductors of Water in Cities and Villages, Conductors under Street-Crossings, R. R. Embankments and Plank and Public Roads. Also, for Blow-Pipes, Well-Sides, Steam Escapes, &c.

Important recommendations of this Pipe are Cheapness and Durability. They improve with age and use, and are easily and quickly laid, forming a perfect joint.

Their perfect smoothness gives them a capacity of at least 30 per cent. over brick, stone or wood sewers of the same size, and prevents them from collecting sediments from sink or other drains.

All orders will receive prompt attention, by addressing

Also, Mahogany Boards, Plank, Coffin Stuff, Wave Mouldings, Balusters, Newels, Scrolls and Coping for Church Pews, Spanish Cedar, Lignumvitæ, &c., &c., suitable for Builders, Cabinet, Piano, Melodeon, Looking-Glass, Segar Box and Car Manufacturers.

Purchasing my stock for cash at the cargo sales in New York, and possessing superior facilities for Manufacturing at the lowest rates, I am prepared to sell as low as dealers in New York or elsewhere, thus making it a saving to those who may favor me with their trade, of time, freight, risk, and other expenses incurred in going to New York.

My Factory is situated within a few rods of the Erie and Champlain Canals, and on the line of Rail Roads running North and West, and shipments can be made without delay.

My stock of Mahogany Boards, Plank, &c., is now one of the largest in the country, all of which I offer very low for cash or approved credit.

☞ Orders and Letters to my address at Cohoes, will be promptly attended to.

SUPERIOR ALBANY PALE, BROWN, AMBER ALES, XX AND PORTER.

Analytical Laboratory,
ALBANY MEDICAL COLLEGE, May 2d, 1859.

I have made careful chemical examinations of several samples from different brewings of the article known as "McKNIGHT'S MALT WINE," and find it to be, as represented, a liquid containing nothing but the fermented extract of malt and hops. The different specimens were found to be nearly uniform in composition—the slight difference observed being principally in the amount of alcohol present, owing probably to the varying length of time that had elapsed since the brewings were made.

The Malt Wine examined contained no excess of saccharine matters, such as sugar or honey (as is often the case with similar articles), and which have the effect to mask, to a more or less considerable extent, the peculiar flavor of the hop, and at the same time to diminish the medicinal value of the malt liquors in which they are found. The amount of alcohol contained in the "MALT WINE" is considerably greater than is generally found in American Ales. From the examinations I have made, I am satisfied that the "Malt Wine" is made from carefully selected barley and hops, and is skillfully brewed; that in point of purity, and all desirable qualities, it is fully equal to the best imported ales. As such I can confidently recommend it to the public as an agreeable beverage, and to Physicians as a desirable article for medicinal use.
